Locating the serial number of your Leica Scanner

When communicating with customer service concerning your scanner it is important to know the individual serial number of your instrument.

BLK360 Scanners

The serial number of the BLK360 is located on the cover of the battery compartment	
The serial number will consist of a 7-digit numerical code. It will be clearly marked S. No	

Similarly, the serial number for the RTC360 can be found within the battery compartment.	
The serial number and identifying the scanner can be found on the area marked opposite. Again, the serial number will consist of a 7-digit numerical code prefixed with the identifier S. No. Noted next to the serial number is the equipment number. This is especially useful for processing your scanners details and should be noted if possible.	

Sunbelt Rentals Survey

3 Orpheus House, Calleva Park, Aldermaston, Reading, RG7 8TA. 0330 678 0181   Support Number: 01293 565565

Registered Office: Sunbelt Rentals Ltd. 100 Cheapside, London EC2V 6DT. Registered No. 444569 England & Wales
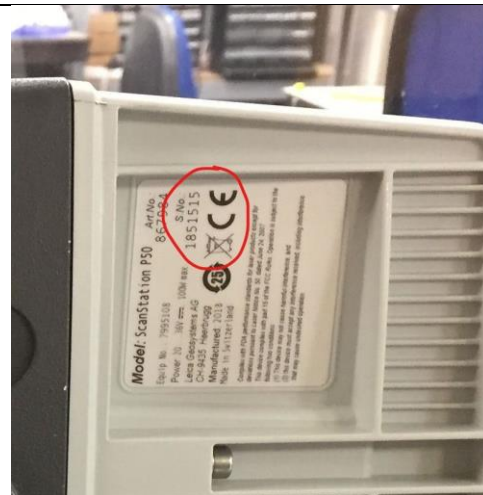

P Series Scanners

The serial number of a P or C series ScanStation can be found on a sticker on the base of the instrument	
The serial number and identifying the scanner can be found on the area marked opposite. Again, the serial number will consist of a 7-digit numerical code prefixed with the identifier S. No. Noted next to the serial number is the equipment number. This is especially useful for processing your scanners details and should be noted if possible.
